Bob and Jim – As we discussed before, the LWG is to propose the edits they wanted to FS Section 1 and we would include our partners in the discussion. Please inform members that approaching DEQ separate from EPA is not the process for resolving issues with the FS.

Hi Rich and Kristine,

We have received a number of phone calls this morning from RPs who are apparently responding to the language in the Section 1 about their facility. One you receive these comments, we would be happy to work with you on the consideration of the comment and any proposed language changes. As Tom noted he is out of the office, so just forward any requests for coordination to me.
